

June 2017

**Realizing all Barista's dreams! The ultimate in fully automated coffee machines, "E6".
Launching in Japan, from Swiss maker Jura!**

Following the success of ENA Micro 1, with its innovative design and high-class performance, July 6, 2017 sees the long-awaited arrival of Jura's new product "E6" from Brewmatic Japan. Jura's new fully automatic specialty coffee machine "E6" features a variety of world-first technologies, and with its simple operational system is the perfect partner for Baristas worldwide. As many different types of coffees as you can imagine with a touch of a single button. Moreover, the compact and stylish design fits beautifully and elegantly in kitchens and living rooms everywhere.

A coffee machine suitable for the name 'the ultimate'

For the best coffee, the best brewing process in the world P.E.P. ©

- JURA's pulse extraction process P.E.P. © gives life to the perfect extraction process. Short size specialty coffees such as espressos can be made while drawing out only the best flavor.
- Using a TFT color display and buttons, the operational system is incredibly simple.
- Innovative fine foam technology creates beautiful formed milk.
- An intelligent water system for the best water quality.
- A unique and contemporary design creates a functional and sophisticated atmosphere for any kitchen and living room.
